MIKE PERRY is a Brooklyn-based, multi-dimensional artist. You may know his work on Broad City, which would garner him his first Emmy, for Motion Design. Or, you may know us from his formidable performative relationships with Hermès, mural landscapes with Jameson, rambunctious joints with the likes of Jimmy Fallon, or multi-media experiences with industry leading powerhouses such as Dolby. From beer to clocks to children books, he's been highlighting the world you live in for over a decade with bright neon, hard-cut curiosities, and images that forever encourage exploration. Whether it's the take over of Madison Avenue with Hermès for a one night only musical, or doodling for Playboy magazine, he makes with an inquisitive imagination and versatility.

Mike make paintings, patterns, animation, sculptures, portraits, books, public art installations, monographs, exhibitions, drawings, silkscreens, and everything else that falls within the dreamscape. He is a topographers of the ever-curious journey and making art for everyone has long been his motto, spreading the love for creativity and the influence of positive thought, as he believes in the transformative power of making things. He continues to invite you into the abstract, into the very much unknowable future with eyes open to wonder and hearts full of boundless opportunities, still working without limits.
